FMD – FARM TO FARM PRE-MOVEMENT DECLARATION FORM

Scottish Government has announced a general licence for the direct movement of cattle, sheep and goats between farms of different ownership. One of the requirements of the licence is for keepers to complete a **Pre-movement declaration**.

By printing and completing the following declaration, the keeper of any cattle, sheep or goats will meet the requirements of the licence

The keeper should keep the declaration for 6 weeks from the date it is completed, and shall provide the declaration (or a copy) to an inspector if required.
